Almost three years into the armed conflict in the Syrian Arab Republic, 6.5 million persons are internally displaced (IDPs) and 9.3 million persons are in need of humanitarian assistance inside Syria. In addition over 2.2 million Syrians have taken refuge in the five neighboring countries Lebanon, Jordan, Turkey, Iraq and Egypt.

IOM and humanitarian partners are continuing to scale up their services to meet the challenges posed by this protracted crisis with a particular emphasis on protection and the provision of life-saving assistance and basic needs to displaced Syrian and host communities inside Syria and in the region.

For 2014 under both the Syrian Humanitarian Assistance Response Plan (SHARP) and the Regional Response Plan (RRP 6), IOM is appealing to the international community for almost 150 million USD.
